# Chapter 1

## Time

The **Time** User Manual explains how to use the **Time** module to collect and track incident time for Federal, Casual (AD), and other personnel, as well as for Emergency Contracted Resources. In **Time**, you can create pay documents, the Emergency FireFighter Time Report (OF-288) and the Emergency Equipment Use Invoice (OF-286). By collecting accurate time data, you can generate meaningful management reports.

Make sure you are careful when working with private information such as Social Security Numbers (SSNs) and IRS Federal Employer Tax ID Numbers (EINs). This information must be kept confidential.

Information defined in **Time** is shared with other I-Suite modules, including:

- Resources
- Demob
- Incident Action Plan (IAP)
- Cost
- Supply

Topics in this guide include the following:

- Common Features (See Page 5)
- Selecting Time Options (See Page 9)
- Reviewing Common Data (See Page 11)
- Personnel Time (See Page 13)
- Crew Time (See Page 22)
- Contracted Time (See Page 35)
- Posting Time Adjustments (See Page 46)
- Printing Time Reports (See Page 48)
- Advanced Contracting (See Page 61)

## Chapter 4

### Reviewing Common Data

This section explains how to review common data when you are in the **Time** module.

**Resources** is the primary data entry point for Common Data in I-Suite. The quality of the initial data is critical to successful integration of the data into other I-Suite modules.

Understanding the concept of data sharing is critical. Data is shared between all I-Suite modules. Changes, additions, or deletions from any functional area affects the other I-Suite modules. Successful integration requires cooperation and established data ownership rules.

Follow the steps in this section to review common data:

Information located above the tabs (if any) in the **Manage Resource - Edit Mode** area is considered the **Common Data** for a **Resource**.

1. Click the **Time** button to open the **Time** window.
2. In the **Resources** grid, click to select the Resource you want to view.
3. Click the **Edit** button in the **Main** toolbar to open the record in the **Manage Resource - Edit Mode** area at the bottom of the window.
4. Review the following information for completeness and accuracy:
  - \*Request Number
  - \*Account Code
  - Person - checked, if applicable
  - Contracted - checked, if applicable
  - \*Resource Name
  - \*Kind/Position
  - Trainee - checked, if applicable
  - \*Status
  - Unit ID
  - Agency

When the **Employment Type** is **AD**, you cannot set the **Agency** to **PVT**.

- \*Configuration

## Chapter 4: Reviewing Common Data

---

- Actual Release Date
- Actual Release Time

A label preceded by an asterisk (\*) indicates that the information is required.

When the **Person** checkbox is checked, the **Resource Name** is replaced with **Last Name** and **First Name** and the **Time - Individual** tab displays. Either a **Last Name** or a **First Name** is required. You do not need to define both in order to save the record.

When the **Contracted** checkbox is checked, the **Time - Contracted** tab displays.

If you change the **Person** or **Contracted** selection and time was posted for the resource, a message displays indicating that the time postings will be deleted if you continue. When you select **Yes**, the system deletes all time postings. When you select **No**, the system does not change the **Person** or **Contracted** selection.

If you change the **Person** or **Contracted** selection and one or more invoices were already generated for the resource, a message displays indicating that the resource has invoiced postings. You must manually delete those postings before you can change the **Person** or **Contracted** selection.

5. To save any changes made to the information, click the **Save** button.
6. To close the **Manage Resource - Edit Mode** window, click the **Close** button.

## Chapter 5

### Personnel Time

Use the **Personnel Time** options to post personnel time to the system. This section includes the following information:

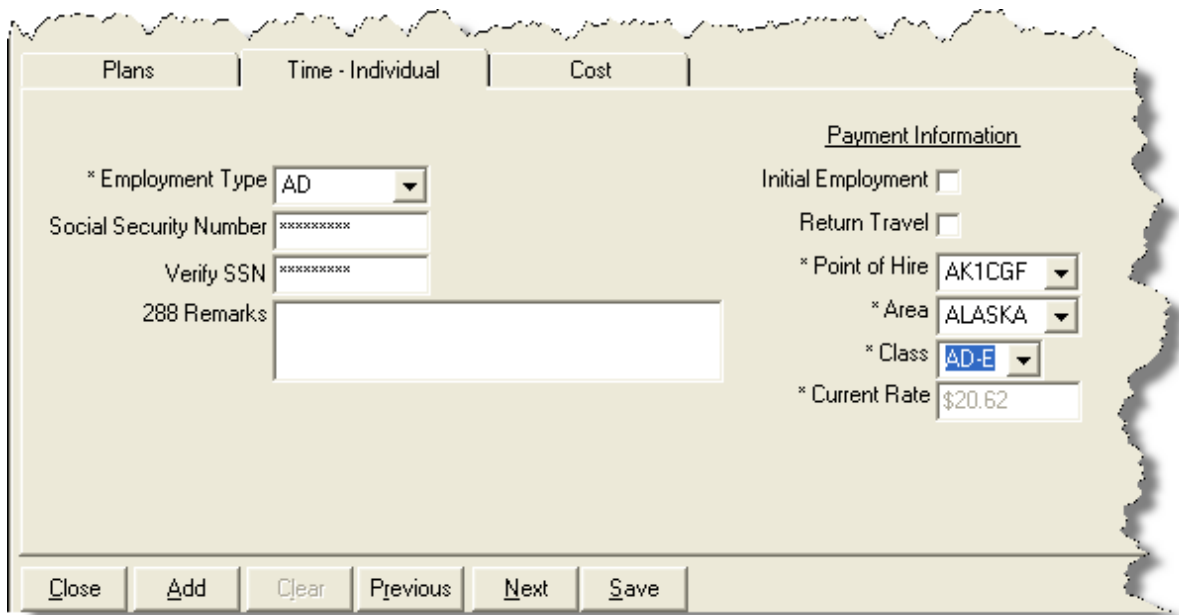

- Defining Personnel Information (See Page 13)

### Defining Personnel Information

This section explains how to define **Personnel** information.

Personnel data is initially defined in Resources. Before you can Post Time, you must edit Resource records and add Time data.

3. Click the **Edit** button in the Main toolbar at the top of the window.
4. Click the **Time - Individual** tab at the bottom of the window.

The screenshot shows a software window titled "Time - Individual" with three tabs: "Plans", "Time - Individual", and "Cost". The "Time - Individual" tab is active. The window contains several input fields and checkboxes. On the left, there is a field for "\* Employment Type" with a dropdown menu showing "AD", a "Social Security Number" field with a masked input (\*\*\*\*\*), a "Verify SSN" field with a masked input (\*\*\*\*\*), and a "288 Remarks" text area. On the right, under the heading "Payment Information", there are checkboxes for "Initial Employment" and "Return Travel", a dropdown for "\* Point of Hire" showing "AK1CGF", a dropdown for "\* Area" showing "ALASKA", a dropdown for "\* Class" showing "AD-E", and a text field for "\* Current Rate" showing "\$20.62". At the bottom of the window is a toolbar with buttons for "Close", "Add", "Clear", "Previous", "Next", and "Save".

When the **Agency** is **PVT**, you cannot set the **Employment Type** to **AD**.

- FED
- OTHER

6. If the **Employment Type** is **AD**, enter the resource's social security number in the **Social Security Number** box. For privacy reasons, the social security number displays as asterisks (\*) when you type it in this box.
7. To ensure that the social security number for an **AD** employee was entered correctly, enter it a second time in the **Verify SSN** box.

Resources with an **AD Employment Type** must have a **Social Security Number** defined or an **Original OF 288** will not print for them.

7. In the **288 Remarks** box, type any 288 remarks.
8. If the **AD** employment type is selected, define the following information in the **Payment Information** section:
  - If this is the initial employment for the personnel resource, click to check the **Initial Employment** checkbox.
  - If there will be return travel, click to check the **Return Travel** checkbox.
  - From the **Point of Hire** drop-down list, select the appropriate point of hire.
  - From the **Area** drop down-list, select the appropriate area.
  - From the **Class** drop-down list, select the appropriate class.
9. If **OTHER** is selected as the **Employment Type**, enter the appropriate **Current Rate**.
10. If **FED** is selected as the **Employment Type**, this is the only required information.
11. In the **Personnel Mailing Address** area, define the following information:
  - Address 1
  - Address 2
  - City
  - State

- Zip
- Phone
- Fax

If a **Fax** number for **FED** or **OTHER** is defined, it is available for the Personnel Time Report (Print/Fax).

12. To save your changes, click the **Save** button.

## Posting Personnel Time

Follow the steps in this section to **Post Personnel Time**:

The date automatically changes for posting time that extends beyond midnight. If users post overlapping hours, they must first verify before proceeding.

Posted time is locked to an established employment code.

1. Click the **Time** button to open the **Time** window.
2. In the **Resources** grid, click the **Personnel Resource** to which you are posting time.
3. On the **Time Toolbar**, click the **Post Time** button. A **Personnel Post** tab displays at the bottom of the window.

7. If a special circumstance applies (e.g. Environmental Pay, Travel, Day Off, etc.), select the appropriate code from the **Special** drop-down list.

If you assign the **GUAR**, **COP**, or **DAY OFF** special codes to a resource with an **Employment Type** of **FED** or **OTHER**, the **Start Time** and **Stop Time** boxes are disabled. You do not need to define a Start or Stop time when these special codes are assigned.

If you assign the **GUAR**, **COP**, or **DAY OFF** special codes to a resource with an **Employment Type** of **AD**, the **Start Time** and **Stop Time** boxes are disabled and an **Hours** box displays. Enter the number of hours for the **AD** resource in this box. The maximum number of hours you can enter is eight.

8. In the **Start Time** box, either type the time or select it from the drop-down list to identify when the individual started working.
9. In the **Stop Time** box, either type the time or select it from the drop-down list to identify when the individual stopped working.
10. Click the **Save** button to commit the posting.

If the time your are posting includes time from before midnight and time after midnight, a **Posting Spans Midnight** message displays. If you click the **Yes** button, the posting is split into two entries. If you click **No**, the posting is canceled.

11. Click the **Close** button to close the **Personnel Post** tab.

If the special code **GUAR**, **COP**, or **DAY OFF** were assigned to the posting, you cannot edit the entry. To make changes to one of these postings, you must delete the entry and then create a new posting.

5. Click the **Close** button after you make your changes. The application automatically saves your changes when you close the **Personnel Post** tab.

For edited entries to save, you must click outside of the row being edited. When the pencil image in the selector column changes from a pencil to an arrow, the changes were saved.

## Deleting Posted Personnel Time

2. Click the **Post Time** button to display the **Posting** area at the bottom of the window.
3. In the **Resources** grid, click the **Resource** for which you are posting travel time.

4. Click to check the **Post Return Travel Start Time Only** checkbox. The system automatically inserts the code **TVL** in the **Special** box.

When the **Post Return Travel Start Time Only** checkbox is checked, the number of hours is automatically set to **0** (Zero).

If you want to define hours for the Return Travel, do NOT check the **Post Return Travel Start Time Only** checkbox. Instead, select the **TVL** code from the **Special** drop-down list. Then define a **Start Time** and a **Stop Time**.

5. In the **Date** box, either type the date for the travel time or select it from the drop-down calendar.

## Chapter 6

### Crew Time

A crew is more than one resource sharing the same request number. Crews are built by attaching or rostering members to a kind of resource. Examples of crews include hand crews, engine crew members, and contract pickup with an AD driver.

Types of crews include the following:

- Hand crew
- Engine members paid on an OF 288
- Driver attached to a vehicle
- Faller attached to a chainsaw or vehicle
- Helitack Crew

The same rules apply for entering crews as for entering personnel:

- Add crew and member data in **Resources**.
- Edit crew and member data and enter additional crew and member data in **Time**.

The two levels within a crew are the crew itself and the crew members or operators.

This section contains the following information:

- Creating a Crew (See Page 22)
- Editing Crew Information (See Page 26)
- Crew Roster (See Page 54)
- Posting Crew Time (See Page 26)

### Creating a Crew

Crews are built by attaching or rostering members to a Kind of Resource. Follow the steps in this section to create a crew:

When crew and crew member data is not being entered by **Resources** users, **Time** users must enter and manage all crew and crew member data.

1. Click the **Time** button to open the **Time** window.
2. On the **Toolbar**, click the **Add** button. A **Manage Resource - Add Mode** area displays at the bottom of the window.
3. In the **Manage Resource – Add Mode** area define the following:

- \*Request Number
- \*Account Code
- Person - checked, if applicable
- Contracted - checked, if applicable
- \*Resource Name, or \*Last Name and \*First Name (for a person)
- \*Kind/Position

Make sure you select a Crew code from the Kind/Position drop-down list. This identifies the resource as being a crew.

- Trainee - checked, if applicable
- \*Status
- Unit ID
- Agency
- \*Configuration

- Adding Operators to a Contracted Resource (See Page 39)
- Posting Contracted Time (See Page 39)

### Defining Contracted Resources

Follow the steps in this section to define contracted resources.

### Relationships between contractors, agreements, and resources

The following are important terms to understand when working with contractors:

- **Contractor** – a business entity that has available resources.
- **Agreement** – an OF-294 that is attached to the Contractor. A single contractor may have many agreements.
- **Specifications** – conditions that the Resource (Contractor) must meet to fulfill the agreement.

It is not mandatory to have a contract and an agreement established prior to posting time, but it may be necessary before processing an invoice.

### Reviewing or Editing Common Data

Follow these steps to review or edit common data before you define the Contracted Information:

Resources is the primary data entry point for I-Suite data. The quality of the initial data is critical to successful integration of the data into other I-Suite modules.

Understanding the concept of data sharing is critical. Data is shared between all I-Suite modules. Changes, additions, or deletions from any functional area affects the other I-Suite modules. Successful integration requires cooperation and established data ownership rules.
